I've been thinking about you. I miss us. I'd like to see you again, if you're free. Please come over to my place to hang out. I'd love to see you.
in a few days.

The oldest doctor that I have been in the room is Dr. Darbyler. This name is in the ledger books of the State of "A. S. M. Exeter" in the year 1878. Much have been done to make a sustainable and its future. Dr. Bennett's as he same thing a valuable paper in Declaration of Independence published at New York. He early date.

You asked about Dr. Bennett's paper so far as I know there are
I'm so glad I kept the few I have - I will let you know later about the silver cups. Dr. Bennett's handsomest silver was found on top for Zelma. (So it has been related) you know what cheese comes from cheese papers.

I will send pictures in a few days. I am writing this to keep some about.
Dr. Bennett, they will be valuable to put with what I have.

Also enjoyed your paper on "The Fair Facade" and appreciate you sending it to me as this subject I have been interested in and am the happy possessor of the diary of Thomas Lewis. Since the time that we first met a few years ago...
The original has burned from descendants in Sen.
by New Geo Peach of Charleston, and he gave me the
Copy. Through Correspondence with other descendants-
year ago. I had been tried it had been burned
from there and lost, but it was found again
perhaps had been kept in hiding.

Very Cordially

Thomas Pa.

My dear Mr. Miller,

Mr. Friend has handed me your letter of October the 14th, referring to the sketch of his father, the late Mr. G. H. Friend, and requested me to send you the desired information. We have all the data you desire, with the exception of a few years of his early school life. I have been trying to locate this but if it is not received by the end of this week, I shall forward to you just what we have. With best wishes for your work, I am very truly yours.

(Mrs. E. E. Markle Bradford Friend)
P.S. I wonder if you might have any data of Dr. Wm. Bradford and Dr. Henry Bradford, who practiced medicine in Virginia prior to 1817. Dr. Wm. B. left VA and settled in Ky. Dr. Henry left VA, settled in Penna. I have the record of Dr. Henry Bradford in Penna. But am anxious for that of the two brothers in Virginia.

My dear Mr. Miller,

Enclosed in the promised sketch of the life of Mr. Geo. From Friend, I am sorry it was delayed, but I had so hoped to find out the name of the private school he friend attended when he was only a lad of about twelve. I have heard him tell about it many times and Mr. Friend says he thinks it was in Belchitton 40 to 60 feet from school, not being near...
