Whether we adjourn this week or Monday, all depends on how things go off in the Market today, if we get into no great a bust, but go right along with the business. On July adjourn tomorrow, but I do not think it probable that we

Dear Sir;

I herewith send you a notice served on us to take defensive in the case of Col. Sp. Down. You will please see that Done about it.

You must, Permit Bealeworth to be defeated.

There is a rumour circulated through the State that Gen. Anderson has been stationed at Louisville with few than Stand E. State troops. It is false. No troops have been nor will be brought into this State, unless there shall be an absolute necessity for it. Anderson will not come.

Remain in Ky. the party is in few days to the mountains of Pennsylvania for his health, which is not yet restored. I think we will certainly elect that party. Though a desperate effort will be made to defeat him.

I hope you and ladies will be again Constituted. We shall need such men to the legislature.

My dear Sir,

Allow me to congratulate you upon your election to the U. S. Representative stations, and upon the success of the Union party throughout the State.

Three within 90 days have the people of the State cast a large majority in favor of the Union and the neutrality adopted by the Union party. After these declarations of the popular will, it would seem that the minority should at least have remained quiet. But the leaders of the Seceshonists seem wholly ignorant of the expression of popular sentiment and seem as determined as ever to throw up in opposition to the Federal Government.

At the approaching session of the legislature, the repeal of the law establishing and organizing the State Guard...
will be imperatively demanded by the Union party. The Senators in Congress (both of whom recognize the right of instruction) should be instructed by the body that elected them, to resign. The legislature will too I have no doubt pass a law authorizing and empowering a commission to effect a loan from the Bank of the State Commonwealth, to pay the tax of the State, called for by the General Government as Keys proposition, to carry on the war in which the Government is now engaged with the Confederate States.

An impeachment too of the Governor I have no doubt too, if sufficient ground for his removal can be shown, will be resolved upon.

I view the next legislature as perhaps the ablest body of men ever convened in the General Assembly at Frankfort. That their action will be all that their
friends can wish I do not entertain a doubt of.

The election of Speaker will be the first duty devolved upon the House of R.
I feel candidates I have heard the following gentlemen named. Alp. Allen, John P. Wixson, Harrison Taylor, and Judge R. A. Buckley. The election of Judge Buckley would give his friends great qualification. His mature ability and candor as bearing sufficiently fit him for the position. I would not derogate from the just claims of either any of the good men named, but I know Judge Buckley so intimately that I cannot forbear urging his claims upon the friendly consideration of our friends.

I shall be pleased to hear from you, and to see you at Mansfield, wherever you can make it convenient.

With high regard I am your friend.
