A Good COLLECTION AGENCY

IF THERE remains any question in the minds of professional and business men concerning the modern, up-to-date collection agency, that question is best answered by pointing out that the collection agency system has filled a long felt need in modern business and has proved its worth.

The services of the modern collection agency are as complete as they are effective. To professional and business men they are of enormous value. They cut or eliminate entirely serious credit losses. Their clients receive invaluable information and counsel on credit matters. The collection agency is a very necessary spoke in the wheel of modern business.

Such a policy has made this agency respected and successful. We are serving many professional and business men of this community in a high class manner. Their confidence in us encourages us to believe that we can perform the same services for you, if you will give us the opportunity.

PATTON ADJUSTMENTS, INC.

A Dignified Collection Service

JACK PATTON, Manager.

CHARLESTON, WEST VIRGINIA

TELEPHONE 27-158

Please mention THE WEST VIRGINIA MEDICAL JOURNAL when answering advertisements.
Private First Class Melvin Brown, of Mahaffey, Pennsylvania—Medal of Honor for valor in action near Kasan, Korea, September 4, 1950. Stubbornly holding an advanced position atop a wall, Pfc. Brown stood off attacking North Koreans until all his rifle ammunition and grenades were gone. When last seen he was still fighting—with only an entrenching shovel—rather than give up an inch of ground.

Never forget the devotion of Melvin Brown!

Now, this very day, you can help make safer the land he served so far "above and beyond the call of duty." Whoever you are, wherever you are, you can begin buying more . . . and more . . . and more United States Defense Bonds. For every time you buy a bond you're helping keep solid and stable and strong the country for which Private Brown gave everything he had.

And remember that strength for America can mean peace for America—so that boys like Melvin Brown may never have to fight again.

For the sake of Private First Class Melvin Brown and all our servicemen—for your own boy—buy more United States Defense Bonds—now. Defense is your job, too!

Don't forget that now every Series E Bond you own automatically goes on earning interest for 20 years from date of purchase instead of 10 as before. This means, for example, that a Bond you bought for $18.75 can return you not just $25 but as much as $33.33! For your country's security, and your own, buy U. S. Defense Bonds now!

*U.S. Savings Bonds are Defense Bonds - Buy them regularly!
Added carbohydrate is a necessity for a well balanced formula. In adequate amounts, carbohydrate:

1. Spares protein for essential tissue building functions.
2. Permits proper metabolism of fat.
3. Promotes optimum weight gain.

Pediatric authorities recommend a caloric distribution of about 15% from protein, 35% from fat, 50% from carbohydrate. For forty years, cow's milk and Dextri-Maltose® formulas with this approximate caloric distribution have been used with success.

These formulas often consist of ½ evaporated milk, ½ water and 5% added Dextri-Maltose—1 level tablespoon Dextri-Maltose to 5 ounces of formula.

It takes adequate added carbohydrate to balance the formula with the infant's needs.
